

DAILY NEVADA STATE JOURNAL
SATURDAY, APRIL 23, 1892
ANTI-HARRISON REPUBLICANS.

Washington correspondents say that the Anti-Harrison Republican Senators, of whom there are several, are at their wit's end, hoping to find a candidate with which to fight Harrison. When Cullom withdrew he was sent for to talk the matter over. He was in Washington several days, but did not make much progress, as after mature deliberation it had been decided that his war record had made him an impossibility. This almost broke the General's heart, as the Presidential race has been buzzing in his bonnet ever since he became a millionaire, and, while he has not promised to withdraw, he has no hopes of getting the nomination though he advises the election of unpledged delegates to the National Convention.

Czar Reed could have the support of a majority of the anti-Harrison men, but for Blaine's opposition. Reed advocated the passage of the Force bill, which Blaine opposed as did also several of the anti-Harrison Republican Senators. Reed also opposed reciprocity, believing it to be a free trade measure in disguise, consequently the Czar and the Plumed Knight are not on friendly terms, and though they profess to be members of the same political organization, they differ more than the Western Republican Senators do with the Democrats.

It is possible, if the opposition to Harrison becomes as decided throughout the Western States as it has in Nevada, Colorado and some other States, that Stewart, Bland, Teller or some other pronounced free coinage man may be nominated for President by the People's or Silver party, and perhaps carry more States than Harrison or Cleveland. The blindest and most bigoted partisans in Nevada can see, though for political reasons he may not admit it, that no anti-silver candidate for President can get the vote of this State. The people irrespective of party are pledging themselves to vote for no gold bug and they cannot be persuaded to break that pledge by Democratic or Republican place hunters.

TELLING SOME TRUTHS.

There are two People's party Representatives in Congress from the State of Georgia. One of them is Thomas E. Winn, and the other Thomas E. Watson. They have been Democrats, and though not as radical as Jerry Simpson, the Kansas statesman, who has been a Republican, they make good points on both the old parties in debating the tariff and other bills in Congress. Watson recently ridiculed the stereotyped tariff speeches made in the House. He said the Republicans declared themselves in favor of protection as a principle, but in order to escape from the principle, adopted reciprocity in practice. The Democrats on the other hand, say that free trade, which is but another name for reciprocity, is thoroughly right, but they declined to accept it as a rule of action and practically believe in a tariff for revenue.

Mr. Watson ridiculed the revenue laws and elicited applause from the galleries when he declared that it cost the Government last year at St. Augustine, Florida, \$18,000 to collect fifteen cents. At Cherry Stone, Virginia, the Government expended \$1,950 for salaries for custom house officers, who collected nothing, and at Annapolis, Maryland, where an official received \$953 for doing absolutely nothing, not a cent was collected for import duties.

There are a number of places along the coast from the Canadian line to the Gulf of Mexico, which have been made ports of entry for no other purpose than to provide party favorites with sinecure positions, as no vessel, home or foreign, ever enters them, and the officials have nothing whatever to do except to make out statements that no vessels have cleared from or discharged cargo at the port.

IT AVAILETH NOTHING

The Cleveland lamb, whose predictions are printed in the Goldbug, sees nothing in politics but the offices. As a Democrat the lamb wants a Cleveland delegation sent to Chicago to vote for his pet, and as a Republican, he pretends, through the columns of the Goldbug, to be bitterly opposed to Cleveland. The innocence of the lamb would be refreshing, were it not assumed for a purpose. The people, however, are not as unsophisticated as the Goldbug Democratic-Republican imagines. The reopening of silver mines and prosperity of the State is of far greater importance to them than the few Federal offices in Nevada, and the silver clubs which are being organized through the State prove conclusively that neither Harrison nor Cleveland, nor in fact any other goldbug will get the electoral vote of Nevada in the year of grace, 1892, consequently the logic and predictions of the Democratic lamb in Mr. Harrison's Reno organ, availeth nothing.

MISTAKEN

The Virginia Enterprise, which, though published in a mining town, is controlled by goldbug corporations, abandoned the fight for silver remonetization some time ago, says the JOURNAL never has anything to say about Democratic conventions and Cleveland. The readers of the JOURNAL know that it is misrepresented by the Enterprise. The JOURNAL cares as little for Cleveland as it does for Harrison. It takes no favors of either and will not advocate the election of either. Both are enemies of Nevada, as they are opposed to the great industry of the State, and only a few newspapers, which do not reflect the will of the people, and a few persons, most of whom expect office, favor the election of one or the other. The JOURNAL recognizes no difference, so far as Nevada is concerned, between a Democratic goldbug and a Republican goldbug, as both are enemies of the State.

A CONSPIRACY DISCOVERED.
President Harrison to Lay the Corner Stone of Gen. Grant's Tomb.

CONGRESSIONAL PROCEEDINGS.
Deeming in Court—Have Not Been Rescued—Nevada's Grand Army Posts Will Be Granted a Hearing—Suicide Near Carson.

A Conspiracy Discovered.
SEATTLE, Wash., April 22.—An inquest on the human remains found in the ruins of William Radloff's house was held this afternoon and the testimony showed they are those of R. B. Lewin, who was buried in Greenwood Cemetery February 18. It also confirmed the story of a conspiracy to defraud life insurance companies by making it appear that Radloff, one of the conspirators, who has confessed, told how Radloff and wife had agreed in the plot. He and Radloff stole the body from the cemetery last March and buried it in Radloff's chicken yard. The latter then had his life insured last Friday. They piled dry bark on a mattress in the house and saturated it with coal oil and dressed the body in Radloff's clothes. Radloff crashed the skull and cut off both legs to create the appearance of murder. Then they lighted a candle with a waxed string running to a pile of shavings on the floor and left the house. He (Kottrach) crawling to Seattle and Radloff to Ballard.

Mrs. Radloff, dressed in mourning, today testified that she believed her husband dead. She had him insured his life because a fortune teller told her he would die within a year. She was preparing to go to Germany when the fire occurred. A mass of testimony was given showing the corpse to be that of Lewin and that it was stolen by Radloff. The coroner's jury found accordingly and Kottrach and Mrs. Radloff were held on a charge of arson.

House Proceedings.
WASHINGTON, April 22.—The Noyes-Rockwell contested election case occupied the House today. The Democratic Presidential nomination is thought to be concealed behind this legal question. The vote, it is said, indicates that a much talked of Western man may come to the front.

Fellows of New York favored Rockwell, and Cockran of New York followed, but neither referred to the political imbroglio, except by innuendo, but O'Farrell of Virginia announced himself as a stalwart Cleveland man. He was rapturously applauded, but failed to carry the House with him with but thirty-nine members recording themselves in favor of the contest. The chasm between Cleveland and Hill seems to be more than ever without the prospect of a plank to bridge it.

O'Farrell closed his argument in favor of Noyes. The question recurred on resolutions of the minority declaring Noyes not elected. Carried by a vote of 140 to 98, thirty-nine Democrats voting to sustain the report of the majority. There was no break in the Republican ranks. The second substitute declaring Rockwell entitled to a seat, was agreed to by a vote of 128 to 106 and Rockwell retains his seat.

Recess until evening.

Silver Agitation.
WASHINGTON, April 22.—It has been ascertained from members of Congress who attended the meeting of the National Silver Committee last night, that the interest and demand for silver legislation by this Congress shows no abatement. The hope is expressed that some action might yet be taken by Congress on the Bland bill, or some other measure for the full remonetization of silver. The question of an international conference was only incidentally mentioned, as no confidence is felt among the free coinage men in the outcome. There was no expression on the part of those present that could be interpreted as favoring the immediate formation of a third party as suggested heretofore. A number declared that they would not vote for a Presidential candidate who is against free coinage. The Bimetallist League topic was much discussed and there is a general impression that such a league should be formed.

Senate Proceedings.
WASHINGTON, April 22.—The Chinese Exclusion bill was taken up and Chandler presented testimony showing need of more stringent laws to prevent the influx of Chinese. He admitted that the situation between the American Government and China was a bad one. He then commenced on the correspondence regarding Blair's rejection.

Davis, a member of the Committee on Foreign Relations, looked upon the bill as a rank, radical, unblushing and unmitigated repudiation of every treaty obligation remaining between the United States and China. Davis took occasion in the course of his speech, to announce the cohenaly proposition submitted to the Pope last year.

Without action on the bill, the Senate went into executive session and soon adjourned.

Deeming in Court.
MELBOURNE, April 22.—The trial of Deeming for wife murder was commenced today and the court-room was crowded. Lyle, counsel for prisoner, asked for an adjournment, and April 28th was set for the date of the trial. In Court Deeming was unconcerned and pleaded in a low voice "not guilty."

Will be Granted a Hearing.
WASHINGTON, April 22.—Representative Bryan today asked the House Committee on Appropriations to grant a hearing to a Committee of the Grand Army Posts of Nebraska in opposition to the appropriation of \$100,000 for the entertainment of members of the Grand Army at the Encampment at Washington. The hearing will be accorded.

The President Will Lay the Corner Stone of Grant's Tomb.
WASHINGTON, April 22.—The President will leave here next Tuesday night for New York to lay the corner stone of General Grant's tomb at Riverside Park on the 27th inst. He will be accompanied by Secretaries Elihu, Tracy and Rank and other officials. Secretary Elihu will make an address.

Shot Himself.
SAN FRANCISCO, April 22.—Charles D. Smith, a wealthy resident of New York, was found dead in his room at the Palace Hotel this morning, having shot himself during the night. It is supposed he committed suicide on account of despondency. From remarks which he made at various times the hotel people believed him to be a capitalist with a large income.

Committed Suicide.
CARSON, April 22.—Hank Marsh, keeper of the Pony Saloon, half way between Carson and Genoa on the stage line, committed suicide recently by taking poison. Before his death he decided all his property to one Henry Wood. Some weeks ago he became crippled by an accident and life was a burden to him.

Have Not Been Rescued.
POTTSVILLE, Pa., April 22.—The situation at Lytle Colliery, where ten men were imprisoned and undoubtedly drowned by a disastrous flood Wednesday, is unchanged so far as the recovery of the bodies is concerned. The water is being pumped out rapidly, though it will be some time before the mine is opened.

HOOD'S COMPOUND EXTRACT OF SASSAPARILLA

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health. At this season, nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's Compound Extract of Sarsaparilla. It strengthens Peculiar and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable Sarsaparilla used give to Hood's Sarsaparilla peculiar powers. No other medicine has such a record of wonderful cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other instead. It is a Peculiar Medicine, and is worthy your confidence. Hood's Sarsaparilla is sold by all druggists. Prepared by C. L. Hood & Co., Lowell, Mass.

100 Doses One Dollar

NEW TO-DAY.

REAL ESTATE FOR SALE!

\$9,000. 720 ACRES OF LAND, PAT. area, 10 acres in front, consisting of Walnut, Maple, Mulberry, Alder, Catalpa, Black and Yellow Honey Locusts, about 2000 in number; good water right, with water sufficient to irrigate the whole tract; fine timber lands within five miles; suitable for a colony of four or five families; rail road crosses through the land; this land is the very richest sagebrush land; no salt; price \$4,000; easy terms.

\$4,500. A FINE TWO-STORY BRICK residence in a good location; large lot; good barn and outbuilding; price \$4,500.

\$1,750. ONE-STORY FRAME DWELL. centrally located; must be sold at once; call and secure a bargain.

18,000 ACRES FARMING LAND in Mason Valley, Nevada; 500 acres under cultivation; 11,000 acres irrigated; abundance of water to irrigate the entire tract; oldest water right in the valley.

\$2,000. FURNISHED RESIDENCE, centrally located; price \$2,000.

1,280 ACRES FINE TIMBER LAND; three miles from the Central Pacific Railroad.

\$5,500. LOT IN THE BUSINESS portion of Reno; 60x100 feet.

WE ALSO HAVE ABOUT 200 TOWN LOTS in the town of Reno for sale; a large number of ranches and cattle and sheep ranges in Washoe, Churchill, Humboldt and Elko counties; also land improved and unimproved in Lassen county, Cal. Residences for sale and to rent in all parts of Reno.

The Fame Of SEAL OF NORTH CAROLINA PLUG CUT

IS built by TIME

"Keeping everlasting-ly at it brings success" is good maxim, but it won't do for smoking tobacco. The smoker generally decides all such questions. He tries it, and if it is not up to the mark, he drops it like a hot potato.

The immense success of "Seal of North Carolina" was made by the good will of the smokers.

Marburg Bros. made good tobacco; the smokers did the rest.

Packed in Patent Cloth Pouches and in Foil.

BREVITIES.

Mrs. Norcross is down from Verdi. General R. M. Clarke was among last night's arrivals on the V. & T. Mrs. R. P. M. Kelley was a passenger for San Francisco last night. Try creosote, an absolute disinfectant. Reno Manufacturing Co. Ex-Governor J. W. Adams came down from Carson last night on the V. & T. Bargains in refrigerators, lawn mowers and garden hose at Lange & Schmitt's. Plumbing, tinning and pipe work done at the lowest possible prices by Lange & Schmitt. Mrs. E. G. Stevenson and children of Carson left last night for Grand Rapids, Michigan. Adam Shrieber, one of the popular engineers of the Humboldt Division, was in Reno yesterday. The Silver State has the Winnemucca Silver Club has 200 members, and the Tascadero Silver Club has 301 members. The Seattle water works, owned by the city, earned \$7,453.35 over all operating expenses during the short month of February. At a late hour last night Mrs. S. W. Peck was reported seriously ill. Her many friends hope that her case is not so serious as reported. Severe snowstorms in Wyoming have interrupted the operations of the cavalry sent to put an end to the fighting between the stockmen and rustlers. H. B. Rale, the wide awake and popular insurance agent, took a trip to Verdi yesterday and issued insurance policies to several of the prominent business men of that place. The colored race does not increase rapidly in New England. Rhode Island is the only one of the New England States where the colored people in 1890 were over two per cent. of the population. Overturns have been made by European copper mine owners to restrict the production of copper to the figures of 1891, and an understanding to that effect is sought to be arrived at with American producers of the metal. Collections of internal revenue during the first nine months of the fiscal year ending June 30, 1892, were \$113,302,500, an increase of \$4,777,630 as compared with the receipts during the corresponding period of the previous fiscal year. Ex-Senator W. J. Westerfield of Lyon county, who is just recovering from an attack of the grip, spent yesterday in Reno. He says the silver men of Lyon county will hold a county convention at Dayton next Monday and elect a county organization. Judge Linn rendered a decision in the case of Mrs. Chapin vs. Prof. Hoskins yesterday for disturbing the peace by holding band practice in his room adjoining her lodging house, and found the defendant guilty and fined him one dollar. The case will probably be appealed. Thomas Jefferson Hadley, who for nearly thirty years has been the whirlwind of the Republican party in Unionville, writes to the Silver State that they held no Republican primaries in that village last Saturday, but instead organized a Silver Club, of which he was elected President, and Henry Fellows, a prominent Democrat, was elected Secretary. Attention is directed to the advertisement of T. P. Bradshaw & Co., real estate agents. They have several pieces of property for sale in town and in the country. The Mason Valley lands are among the most fertile in the State, and so far ahead of the alkali desert they are booming at Amador, California, that there is no comparison. At a mass meeting held at Lovelocks Captain Frank Cook was elected Chairman and John T. Reid Secretary. The meeting was addressed by W. S. Riley, F. H. Banks, H. C. Marker, Mr. Parker, George Lovelock and others, and a Silver Club was organized and resolutions pledging the members to vote for no man for President or any other office who is not unqualifiedly in favor of free coinage. That Girl From Mexico. The average theatre goer seeks pure amusements before the footlights. Comedy, farce and burlesque all over vie with comic opera and opera bouffe for popularity and monetary profits. Pure amusement is what Mr. and Mrs. Sidney Drew seek to provide, and "That Girl From Mexico" is said to come as near perfection in that direction as one would anticipate. It is a legitimate comedy, worthy to be named among the foremost American stage pictures and without any regard to its element of satire. The comedy tells a most interesting story. The laughter is almost incessant and cleverly contrived situations follow one another in quick succession. The company will be essentially the same as that of its original production in New York and that which made such a decided hit in San Francisco recently. A Crank. Is constantly turning the world, keeping it in commotion. Its vigorous exercise keeps the whole body active. But it is the constant going that wears. You've no time to rest, no time to eat, and hardly time to live. It's miserable living at the best. Constant indigestion, biliousness and constipation. The body cranks needs attention. Keep the liver active with Simon's Liver Regulator, and you can go as much as you please. Mar Ring Lost. Between the Riverside and Hodgkinson's drug store a California diamond ear ring. Finder will please leave at the Riverside and receive reward. ap23it

FOSTER'S WEATHER FORECASTS. Storm and Cool Waves—Tornadoes in May—The Vortex Theory. Copyrighted, 1892, by W. T. Foster. St. Joseph, Mo., April 21.—My last bulletin gave forecasts of the storm wave due to cross the continent from the 21st to the 25th, and the cool wave from the 23rd to the 27th. The next storm wave will reach the Pacific Coast about the 26th, cross the western mountains by the close of the 27th, the great central valleys from 28th to 30th, and the Eastern States May 1st. The cool wave will cross the western mountains about the 29th, the great central valleys about May 1-4, and the Eastern States about May 3d. This storm wave will be of about equal force during its whole journey across the continent, and will not cause heavy rains except in very limited localities. The first storm wave of May for the West will reach the Pacific Coast about the 26th, cross the western mountains by the close of the 27th, the great central valleys from 28th to 30th, and the Eastern States about the 31st. This storm wave will cause heavy rains in a few small localities, while it will absorb the moisture of a much greater portion of the country. The heaviest rains will be east of the Mississippi, and the storm will attain dangerous force in the Eastern States about the 7th. The cool wave will cross the western mountains about the 5th, the great central valleys about the 7th, and the Eastern States about the 9th. Very dangerous, destructive storms, including tornadoes, will occur during the last half of May, a more particular forecast of which will be given in my future bulletins. I am not giving special forecasts by private letters free, but all letters will be answered if stamps are enclosed. THE NEW TRUTH ENDOCRINE. * * * "Truth new born looks a mischief and a cunning growth. The terror of the household and its shame. A monster cutting in the nurse's lap. That seems would strangle, some would only starve And still it breathes, and passes from hand to hand, And suckled at a hundred half-clad breasts, Comes slowly to its stature and its form, Claims the rough ridges of its dragon scales, Changes to shining locks its snaky hair, And moves transformed into a god of grace, And folds in the same snarling arms That cast it like a serpent from their hold." —HOLMES. MOLECULAR PHYSICS. Writing for the Nineteenth Century, Prof. J. E. H. Gordon says: "Our views of the phenomena of light and heat, of electricity and magnetism, and even of matter and motion, are rapidly merging into one general theory of molecular physics, which is perhaps best expressed by the vortex theory of Sir William Thompson. According to this theory the whole of every part of space is filled with a fluid called ether, almost infinitely elastic. The historic experiments of Faraday interpreted by the mathematical researches of Clerk Maxwell, have demonstrated almost beyond doubt, that the same ether whose waves carry light and heat from the sun and stars to the earth, also carries the waves of electric and magnetic induction which follow each other out of solar activity. "Sir William Thompson holds that all that which we know as matter consists of vortices or whirlpools of this ether, which, from their rapid rotating motion, resist displacement, and therefore show the common properties of hardness and strength in the same way as a spinning top or gyroscope tends to keep its axis in a fixed direction." This vortex theory and the movement of the ether of space manifest in electric currents, is identical with the basic principles of electro planetary meteorology, and were dimly suggested by the eminent Prof. Newcomb in recommending necessary experiments that should be made by the weather bureau. He said: "If properly conducted they should be important to the meteorology of the future. They are so intimately related to astronomy that they cannot be carried to a successful conclusion except in combination with astronomical research." W. T. FOSTER. THE SECRET BALLOT ACT. It Simply Prescribes Rules for Voting. The Gazette's comment last evening upon the interpretation given by Attorney General Terreyson to that clause in the new election law which allows the voter to be assisted in preparing his ticket when he is physically unable to do so himself, does not state the General's position clearly. It makes the General say that a person who is unable to read or write "cannot vote under the Australian ballot law adopted by this State." What the General did say, briefly, was that physical disability does not mean mental disability. The inference to be drawn from this is that in the opinion of the Attorney General the voter who is unable to read his ticket cannot by reason of that fact be allowed an assistant. The Gazette's fear that the law may be construed to conflict with the constitutional rights of the citizen is groundless. The law does not deprive the citizen of his right to vote. It simply prescribes rules under which his vote shall be cast. This can no more abridge the right of the voter than the registration law. The constitutionality of the law which at one time in this State made the payment of poll tax a prerequisite to his right to vote was never questioned. The right of the voter to cast a ballot is one thing, while his capacity to do so intelligently is quite another. A voter may be physically unable to prepare his ballot, and yet be abundantly able to tell when an assistant has prepared it according to his directions, while the voter who is unable to read his ticket and must depend upon the services of an assistant for that purpose may know exactly how he would like to vote, but would live and die in blissful ignorance as to how he did in fact vote. Highest of all in Leavening Power.—Latest U. S. Gov't Report. **Royal Baking Powder** ABSOLUTELY PURE

NOTES FROM THE CAPITAL.

Illness of Justice Lamar—Congress Getting to Work—Lobbyists Getting Rich. WASHINGTON, D. C., April 16, 1892. EDITOR NEVADA STATE JOURNAL:—The very last rumor among those who always seem to know the coming events, is that President Harrison may have another vacancy to fill in the Supreme Court shortly, as close friends of Justice Lamar, who has been dangerously ill for several weeks, say that he will not be able to resume his seat on the bench again, even if he should not die from his present illness. THE VACANT JUDGESHIP. A prominent Pennsylvania lawyer, who called at the White House to present the claims of a friend to the vacant seat left on the bench of the Supreme Court by the death of the late Justice Bradley, says Mr. Harrison told him that owing to the pressure of other important matters, principally the Behring sea negotiations, he had not taken up the question of appointing a new Justice, but would do it at the earliest possible time that he could give it the attention its importance demands. GETTING DOWN TO BUSINESS. The House having passed the free wool and free cotton tie and bagging bills, has settled down to solid business and are now devoting their time to the appropriation bills, which when all of them are passed, other legislation will be taken up. The other legislation is not, however, likely to include anything of National importance. The members themselves are getting tired of the empty seats. The most notable feature of the tariff debate last week was the effort of Representative Clover of Kansas, to attach an amendment to the cotton tie bill, providing for the free coinage of silver. It was ruled out on a point of order. TROUBLE WITH CHINA. It begins to look as if our next foreign complication will be with China, which will, it is thought, be certain to recall its Minister and give our Minister his passports if the Chinese Exclusion bill, as passed by the House last week, becomes a law, and the chances are certainly in favor of its doing that very thing. ABSENTEEISM. Is growing worse in the House as the time for making congressional nominations grows nearer. Think of more than one-third of the members being absent when a vote was taken on the bill placing cotton ties and bagging on the free list. The vote was 167 to 46, three Democrats voting with the Republicans against the bill. LOBBYISTS GETTING RICH. You do not hear as much about congressional lobbying as in the days of Sam Ward, but at no time in the existence of the Government was there more of it than at this time. There are men here who have within a few years grown rich by means of bills lobbied through Congress for the purchase of real estate. The lobby secured the enactment of the law locating the city postoffice on the south side of Pennsylvania Avenue, where they are now sinking forty-foot piles to find a solid foundation, and the outfit of that building when erected, will have to include a steam pumping apparatus to clear the cellar of the water certain to enter whenever the Potomac river gets a little high. Having succeeded so well with the post-office bill, the lobby is now working up congressional sentiment in favor of a bill which has been introduced to spend \$3,500,000 to erect a new Patent Office in the same locality. R. Narrow Escape From Drowning. Last night about 9 o'clock as Officer Coats was crossing the V. & T. bridge he heard an indistinct sound as if some one in distress, and upon investigation discovered Pat Wiley, formerly night watchman at the Reduction Works, clinging to one of the cross pieces of the Riverside Mills flume. Wiley had started across the bridge and in the darkness made a misstep and fell into the ditch, but fortunately caught one of the cross pieces of the flume and held on until assistance arrived. When discovered he was nearly exhausted and would not have been able to hold on to the flume much longer. Notice. The public generally, and fishermen in particular, are hereby cautioned against trespassing on the lands of the Reno Reduction Works in the vicinity of the fishway at lower end of Scott Island. Persons taking fish from the fish-way or meddling with the fish ladder or gates will be prosecuted on my information. H. H. BROCK, Supt. Reno Reduction Works, April 21, 1892. 3t Disinfectant. Try creosote, an absolute disinfectant. RENO MANUFACTURING CO.

Baseball. SAN JOSE, April 22.—San Jose, 8; Oakland, 4. SAN FRANCISCO, April 22.—San Francisco, 4; Los Angeles, 0. Death of Colonel Goodrich. BORON, April 22.—Colonel Edwin R.
